**BASEBALL**

Baseball is one of the most (0) *popular* games in the world. It's perhaps the most popular sport in the USA, after basketball.

People in the USA played the first real modern baseball (1) \_\_\_\_\_ on 19th June 1846. Baseball started a fashion in America. Today baseball players (2) \_\_\_\_\_ special clothes, caps and boots in bright colours.

There are nine (3) \_\_\_\_\_ in a team. Each team has a pitcher. This is a person who throws the ball. And each team has a catcher. This is a player who puts a big (4) \_\_\_\_\_ on his hand and catches the ball. Each player hits the ball with the bat and then runs around the bases. This person is called the batter. All the batters in the first team must hit the ball as (5) \_\_\_\_\_ as possible. Then the second team does the same. If someone catches the ball, that batter is out. The winning team is the team with the most runs.

Baseball is easy, it's (6) \_\_\_\_\_ and anyone can play it. Why don't you start a baseball team in your school?

## BEAVERS

Today, beavers do not live in Europe any more. The last European beaver died 150 years ago. Mostly, they live in Canada.

A beaver is covered with warm, waterproof fur. That is why they do not get cold in the water. A beaver's back feet are wide and powerful. Its tail is flat and it has got no hairs. They use it to swim fast. The most remarkable thing about a beaver is its teeth. They are large and very strong. A beaver needs them to cut trees.

Beavers are plant eaters. Every day they eat 1.5 kg of vegetation. They usually eat the bark of trees. Their favourite foods are leaves, fruit and nuts.

Beavers cut tree trunks and put them across rivers. We call these objects dams. Rivers damage dams, so beavers often have to repair them. Usually, they work on dams at night. They check and fix the damaged parts.

Beavers find their partner when they are about three years old. They stay together forever. Under trees beavers make nests for their babies. Beaver babies weigh about 500 grams. The mother beaver feeds them for six weeks. The babies live with their parents for two years.

## ESERCIZIO B

Leggi il brano seguente e indica con il segno (✓) se le affermazioni contenute nella tabella sono vere, false o non presenti nel testo. Segui l'esempio 0.

### LI SIJA'S LIFE

China is about 37 times the size of the United Kingdom. More than a billion people live there. The capital of China is Beijing.

Li Sija is a ten-year-old girl from the capital of China. She's an only child, like most Chinese children her age. She's a pupil at a boarding school in Beijing.

A boarding school is a special school where children not only learn, but also stay in the school building during the week. So Li Sija and her school friends only see their parents when they go home at weekends.

At school pupils have to get up at 6.30 in the morning. Li Sija shares her room with five other girls. Every morning the pupils do an hour of gymnastics before breakfast. After breakfast they wash themselves and get ready for lessons. They put on their school uniforms and go to their classrooms.

Lessons start at 8 am and finish at 4 pm. Li Sija takes extra calligraphy classes at school. Calligraphy is the art of handwriting. It is Li Sija's favourite hobby. She is very good at calligraphy and she has already won several prizes. Li Sija is very proud of them.

Every Friday Li Sija waits for her mother to come and drive her home. When she arrives home she takes off her school uniform and puts on her jeans and a T-shirt. She doesn't like her school uniform because it's grey and she doesn't like this colour very much.

Li Sija always looks forward to being with her parents and her grandmother at weekends. When Li Sija and her mother get home on Friday evening, they sit down and eat dinner first. Her grandmother makes it. She usually prepares noodles with meat sauce and cold cucumber salad. Li Sija says that her grandmother's cooking is much better than the meals at the boarding school.

**PARTE IV: COMUNICAZIONE SCRITTA**

Da qualche tempo corrispondi con un amico di penna che vive in un paese dell'Africa e che ti ha chiesto di descrivergli l'inverno, visto che lui non sa com'è. Scrivigli una lettera nella quale gli spieghi:

- che tempo fa di solito da noi durante l'inverno,
- come ti vesti quando devi uscire,
- quali attività puoi fare in questa stagione.

Scrivi il testo nello spazio che trovi qui sotto.

*Dear Bertani,*

*Thanks for your letter. Here's my answer.*
