#### NAVODILA UČENCU

Natančno preberi ta navodila.

Prilepi kodo oziroma vpisi svojo šifro v okvirček desno zgoraj na tej strani.

Pri vsaki nalogi svoj odgovor napiši v predvideni prostor znotraj okvirja oziroma razpredelnice.

Natančno preberi navodilo posamezne naloge in jo reši.

Najprej poslušaj govorjeni besedili in reši nalogi slušnega razumevanja.

Nato reši še preostale naloge v preizkusu.

Piši čitljivo. Če se zmotiš, napačni odgovor prečrtaj in pravilnega napiši na novo.

Na koncu svoje odgovore ponovno preveri.

Želimo ti veliko uspeha.

Preizkus ima 16 strani, od tega 1 prazno.

# THE PIRATE TREASURE

It is 25<sup>th</sup> January, 1721. The *Senhora*, a great Portuguese ship, leaves a city in India. There are some important people and boxes full of treasure on board. But a month later, there is a storm in the Indian Ocean. The ship has problems in the rough sea. “We’re sinking,” shouts the captain. “Throw the heavy things into the sea but save the treasure!”

Twenty-five days later, the damaged ship stops on Bourbon Island. The sailors have to repair the ship. Suddenly, someone shouts: "Sails on the horizon!" They see two large ships, the *Victory* and the *Fantasy*, with pirate flags.

7/16

There are fifty sailors on the *Senhora*. Thirteen of them are scared and they jump into the water to get to the pirate ships, hoping to save their lives. At the same time the *Victory* with the captain La Buse and the *Fantasy* with the captain John Taylor come to the *Senhora*. The pirates attack the sailors on the *Senhora* with swords and pistols.

After the fight, La Buse wants to know what the ship is carrying. The sailors tell him about the treasure boxes for the King of Portugal. A few minutes later, the sailors bring the boxes to the captain. La Buse uses his pistol to see what is in the boxes. Even the pirates are surprised when they see the treasure. La Buse and Taylor divide the treasure and go their separate ways.

3. **How many** sailors swim to the pirates' ships?

---

4. **How** does La Buse open the boxes?

---

La Buse decides to hide his treasure. He sails for three hours and then gives his sailors orders to stop. He lands the boat on an island and goes into the rainforest. He finds a cave and leaves the treasure there. He makes notes how to find the treasure.

La Buse's treasure is still a mystery today. People are trying to understand the code from his notes to get the treasure. It drives some of them mad. Others spend all their lives trying to work it out. But the treasure is still there waiting for someone to find it.

5. **Where in the rainforest** does La Buse hide his treasure?

## 2. naloga

Preberi besedilo o šimpanzih. Poveži naslove (A–I) z odstavki besedila (1–6). Črko najustreznejšega naslova vpiši v kvadrat pred odstavkom. Dva naslova sta odveč. Oglej si primer 0, ki je že rešen.

### CLEVER CHIMPANZEES

0.  A COMMON NAME: chimpanzee  
LATIN NAME: Pan troglodytes  
AVERAGE LIFE SPAN: 30 to 50 years  
FOOD: fruit, seeds, leaves, but also insects, birds, antelopes and other small animals  
ADDRESS: tropical or dry forests in Central and West Africa  
NUMBERS: 200,000 to 300,000.
1.  Chimpanzees are full of good ideas. If they can't get food with their hands or their mouth, they find different objects in nature to do the job. They catch ants with straws and use leaves to drink water. They make hammers using two pieces of stone or wood to break palm nuts.
2.  Chimps' arms are longer than their legs. They use them to hang from branches and to support themselves on the ground. Their five long fingers are like our fingers. Chimps can pick up most things, even small berries.
3.  Chimps' legs can carry their weight. But they don't run or stand straight on their legs as we do. A chimp's big toe is opposite to the other four toes. This means that chimps can grab objects and hang down from branches with their feet!
4.  Scientists teach the chimps to do things they would not know how to do in the wild. Chimps don't know how to count but some can put numbers from 0 to 9 in order from memory. Chimps can't speak but they can use signs and little drawings to express themselves.
5.  Females have their first baby when they're about 13 years old. They have up to five or six babies during their lifetime. Each baby stays with its mother for about 10 years. Mother chimpanzees take good care of them.
6.  Chimp babies like to watch people who live nearby. They often see people wear special hats, turbans. Sometimes people lose turbans and chimps find them. Chimps put them on their heads and play with them.
