B) BRALNO RAZUMEVANJE

1. naloga

Preberi besedilo o Justinu in Albertu, ki redita kokoši, in NA KRATKO odgovori na vprašanja. Glej primer 0, ki je že rešen.

JUSTIN'S HENS

Justin is a farmer who looks after hens. The hens are all healthy. Every morning Justin gets up and hurries to his hens and gives them a handful of wheat and corn. Then he says: "Good morning my hens! After this you can go into the field and look for big, fat, juicy worms and have them for dessert!" Then Justin carefully fills his basket with eggs that his precious hens lay every day.

0. **What** does Justin give to his hens every morning?

Wheat and corn.

1. **Where** do Justin's hens find worms?

One morning, Justin hears someone calling him. "Justin, I've got some important news!" It is his friend Albert who lives on the farm next door and he also keeps hens.

"I've got a special recipe that will make my hens lay five more eggs a day. If this recipe is right, I will buy a thousand hens and then I'll be rich!" Justin raises his eyebrows. "But you already have one hundred and twenty hens. Isn't that enough? And what will you do with five thousand eggs a day?"

2. **How many** hens has Albert got at the moment?

N 1 9 1 2 4 1 2 1 0 7

7/16

A week later, Albert shows Justin round his farm. His hens are crowded together, all clucking loudly. Justin is surprised because Albert feeds his hens with special green mash. After a few days Albert's hens start laying eggs which are twice the normal size.

When Justin is worried, he sits with his hens and talks to them. One day he says to his hens: "Well, I can't say that I like this. Something strange is going on at Albert's farm. I have a bad feeling about it."

3. **What** do Albert's hens eat?

4. **Who** does Justin talk to when he is worried?

Then one morning Justin hears Albert shouting. "It's a disaster! Help me! I don't know what to do." He sits on Justin's bench in front of the house. Justin pours them hot tea and listens carefully to his neighbour, Albert.

"My hens are laying ten eggs a day. But I have big problems selling them because they are green. Look!" He gives Justin an egg that is as green as a frog.

Justin thinks for a moment. "I think your hens need some proper seed. Take some of my wheat and corn and give your hens a proper meal."

Albert smiles: "Thank you, my friend."

5. **What** do the two men drink?

6. **Why** don't people buy hen eggs from Albert's farm?

COLLECTING COINS

0. Everyone needs a hobby. You need to do something you enjoy doing by yourself or with your family. You need to find something that you are not bored with.

1. Coin collecting is also a way to get rich. Most of us have coins lying around the house. But if you have a coin from the year 1013, you can sell it and get a lot of money.

2. Coins can show us a bit of history. Some coins show the head of a king. Other coins show how people dressed. If we have the coins of Queen Elizabeth I, we can see how she dressed during her life in the 16th century.

3. You can begin collecting coins if you keep all the small money you get or find. As your collection grows, you want to have more and more coins. A web site that shows beginners how to get started is www.collectorscorner.org.

4. If you are a coin collector, these are the things you need: a box, an album for coins, gloves to protect the coins from fingers that could ruin them. You also need a magnifying glass to see every little detail on the coin.

5. Kings and queens started coin collecting already in the past. That is why people call it "The Hobby of Kings". Today we can look at coin collecting as a game. While it's a challenge, it can also be good fun no matter how old you are.

6. If you live in a little apartment, then coin collecting is for you. Your collection will fit into one corner of your drawer. Just remember you need to put it in a safe place, so your coins cannot be damaged.
